1. Purpose

To provide a change to Volume I that incorporates the quidance from the Fleet Review Board to reduce unnecessary workload during the inter-deployment training cycle (IDTC). change incorporates new guidance on baseline industrial hygiene surveys, safety surveys, and assist visits. It provides a revised asbestos control chapter that is more comprehensive than the previous version. This change includes a revised chapter on heat-stress that clarifies the requirements for heat-stress surveys and considerably reduces the resulting workload. change provides a revised chapter on hazardous material control and management (HMC&M). This chapter eliminates the requirement for individual units to develop HMC&M instructions, eliminates the requirement for HM removal in conjunction with the strip ship bill, and eliminates periodicity-based HM inventories (e.g., quarterly and annual).

OPNAVINST 5100.19C CH-2 30 July 1999

The hearing conservation chapter was modified to reduce workload by ensuring only at-risk personnel are enrolled and conducting annual training in conjunction with annual audiograms. The respiratory protection chapter has been changed to ensure that it is current and eliminates internal evaluations. The electrical safety chapter has been revised to reduce administrative and manpower requirements. The lead control chapter has been modified to clarify practices including when and for whom training is required. The chapters on mercury control and polychlorinated biphenyls have been deleted and the material incorporated into chapter B3 on HMC&M. The chapter on man-made vitreous fibers has been cancelled and the practices have been incorporated into the chapter on asbestos control.

- b. Due to the extensive modifications to these chapters, paragraphs have not been annotated to indicate revisions. Users are encouraged to read the entire chapter to understand current policy.
- Remove Volume I pages 1 through 4, iii through xx, Action. OPNAV INSTRUCTION 5100.19C, VOLUME I

Chief of Naval Operations From:

NAVY OCCUPATIONAL SAFETY AND HEALTH (NAVOSH) PROGRAM Subj:

MANUAL FOR FORCES AFLOAT

(a) OPNAVINST 5100.23C (NOTAL) Ref:

(b) SECNAVINST 5212.5D (NOTAL)

(1) Navy Occupational Safety and Health Program Manual for Encl: Forces Afloat, Volume I

- Purpose. To implement the NAVOSH Program and the requirements of reference (a) for afloat commands.
- Cancellation. OPNAVINST 5100.19B and OPNAVINST 5100.20C.

3. <u>Discussion</u>

- Reference (a) was developed as a basic NAVOSH implementation document. It applies to both shore and afloat commands; however, many of the unique and specific situations associated with forces afloat are not fully addressed or taken into account in reference (a). The NAVOSH Manual for Forces Afloat provides afloat commands and supporting staffs with the guidance and direction, and is the primary resource manual, for implementing the NAVOSH Program for afloat commands.
- This instruction updates the safety guidance and precautions contained in OPNAVINST 5100.19B. It reflects modifications to regulatory requirements, embodies lessons learned from mishaps, and incorporates changes recommended by subordinate activities which enhance the NAVOSH Program. As an aid in determining changes made from OPNAVINST 5100.19B, paragraphs which have been modified, added, or deleted are appropriately marked.
- Significant changes have been made to Heat Stress Program (Chapter B2) and Hazardous Material Control and Management (Chapter B3) guidance. In addition, a new chapter has been added on Carbon Dioxide Fixed Flooding System Safety Precautions and Procedures (Chapter C24).
- All levels of command which comprise the naval afloat establishment shall implement and manage the NAVOSH

(Afloat) Program per the policy, procedures, actions, and guidance set forth in this instruction. The policy, procedures, and actions prescribed here are published without the necessity for implementing instructions from the various commands in the chain of command, except as specifically directed. Organizations having significant NAVOSH responsibilities may find it necessary to provide additional supplemental guidance.

5. Reports and Forms

- a. The following reports are required in this instruction and are approved for 3 years from the date of this change:
 - (1) Safety Hazard Report (no report symbol), Chapter A3
- (2) Mishap Investigation Report, Report Symbol OPNAV 5102-7, Chapter A6
 - (3) Mishap Report, Report Symbol OPNAV 5102-6, Chapter A6
- (4) Motor Vehicle Mishap Report, Report Symbol OPNAV 5102-4 (MV), Chapter A6
- (5) Diving Mishap/Hyperbaric Treatment/Death Report, Report Symbol OPNAV 5102-5, Chapter A6
